

WILLIAM LUCYSHYN
2101 Van Munching Hall
College Park, MD 20742
Phone (301) 405-8257
Email: lucyshyn@umd.edu

EXPERIENCE SUMMARY

2005 Center for Public Policy and Private Enterprise, School of Public Policy, UMD
to **Director of Research and Senior Research Scholar**

Present

- In this position, he directs research on critical policy issues related to the increasingly complex problems associated with improving public sector management and operations, and how government works with private enterprise.
- Current projects include: examining strategies to improve how investments in cybersecurity are made; public and private sector partnering; transforming Department of Defense logistics and supply chain management; and identifying government sourcing and acquisition best practices.
- Leads the Logistics Collaboration activities under UMD-Lockheed Martin Strategic Alliance, which includes conducting research and supervising the Lockheed sponsored Graduate Research Associates.
- Developed and teaches a graduate course on Federal Acquisition and Management, as part of the school's Federal Acquisition specialization.
- Mr. Lucyshyn has also served on two DoD Defense Science Board task forces, examining challenges with services contracting.
- He has authored numerous reports, book chapters, and journal articles.

2001 Defense Advanced Projects Research Agency
to **Visiting Senior Research Scholar**, (IPA) Center for Public Policy and Private Enterprise,
2005 School of Public Policy, UMD

Directed research at the Center for Public Policy and Private Enterprise, Maryland School of Public Policy, University of Maryland on policy issues related to information technology, acquisition policy, and cybersecurity.

1997 Defense Advanced Projects Research Agency
to **Program Manager** (Member of the Senior Executive Service)
2001

Principal technical advisor to the Director, DARPA, the Under Secretary of Defense (Acquisition, Technology, and Logistics), and the Secretary of Defense, on the identification, selection, research, development, and prototype production of select technological projects.

- 1994 Directorate of Electronic & Special Programs, Asst. Sec Air Force (Acquisition)
to **Chief, Advanced Reconnaissance Systems**
1997
- Directed analysis of advanced Air Force technology issues at all levels of development and deployment. Initiated studies and high leverage, advanced technology programs.
- 1988 Headquarters, U.S. Air Force, Pentagon, Washington DC
to **Deputy Chief, Special Technical Plans Division**
1994
- Directed an Air Staff division charged with developing and executing plans integral to extremely sensitive Air Force programs. Managed Air Force planning for information warfare, command and control warfare, and disabling weapons technology. Directed the Air Force psychological operations, military deception, and operations security programs. Deployed to Saudi Arabia augmenting the U.S. Central Command staff, in support of the first Gulf War.
- 1985 B-2 System Program Office, Wright-Patterson AFB, Ohio
to **Deputy Chief, Systems Integration Division**
1988
- Supervised the activities of more than 100 government and contractor personnel developing design features which supported B-2 system integration requirements. Chief Engineer for B-2 program elements, including the Pre-Planned Product Improvements program, valued at over \$2 Billion.
- 1983 Air Force Institute of Technology, Wright-Patterson AFB, Ohio
to **Graduate Student**
1985
- Master's Thesis, *Evaluation of a High Pressure Proportional Counter for the Detection of Noble Gases.*
- 1972 U.S. Air Force units, Worldwide
to **Special Operations Staff Officer and Navigator**
1983
- Responsible for staff supervision and planning of US Air Forces in Europe Special Operations Forces, counter-terrorism, unconventional warfare, operations security, and psychological operations. Flew in support of the Iranian Hostage Rescue mission. Performed in various other special operations, airlift operations, and staff roles.

EDUCATION

- BS in Engineering Science, 1971, City University of New York, NY
- MS in Nuclear Engineering, 1985, Air Force Institute of Technology, WPAFB, Ohio
- Certified Level III, Acquisition Professional in Program Management

CLASSES DEVELOPED AND TAUGHT

PUAF 689A

Federal Acquisition: Concepts and Management

UNIVERSITY OF MARYLAND CYBERSECURITY COLLABORATIVE ACTIVITIES

- Conducted collaborative research with the Robert H. Smith School of Business's Accounting and Information Assurance Department for the past 15 years. The focus of the research is the economics of cybersecurity.
- This effort has resulted in a yearly (12 consecutive) international forums co-sponsored by the CPPPE and the Business School, and numerous peer reviewed journal articles.
- Recently completed a 30 month effort funded by the Department of Homeland Security focused on reducing the challenges to making cybersecurity investments in the private sector.
- Reviewer for the 2007 National Academy Study *Toward a Safer and More Secure Cyberspace*.
- Developed and gained UMD approval for a Graduate Certificate Program in Cyber Security in 2006.

SCHOOL OF PUBLIC POLICY SERVICE

- Lead 4 independent reading courses studies for the School of Public Policy.
- Lead a project course on Open-Source Architectures for student enrolled in the Masters in Engineering and Public Policy.

PH.D. COMMITTEES:

- Lei Zhao, Ph.D., 2005, The Value of Security Audits, Asymmetric Information and Market Impacts of Security Breaches.
- Chih-Yang Tseng, Ph.D., 2007, Internal Control, Enterprise Risk Management, and Firm Performance.
- Amir Reza Kashani Pour, Ph.D., 2017, Optimal Requirement Determination For Pricing Availability-Based Sustainment Contracts
